The IEEE International Conference on Signal and Image Processing Applications (ICSIPA), organized biennially by the IEEE Signal Processing Society Malaysia Chapter provides a forum for local and international researchers and engineers from academia and industry to present and discuss the latest technological advances and research results in the fields of theoretical, experimental and applied signal, image and video processing.

IEEE ICSIPA 2015 is the fourth in the series and will be held October 19 – 21, 2015 at Pullman Bangsar in Kuala Lumpur. The previous IEEE ICSIPA conferences, held since 2009 have been major successes with 50%-70% international participation. Distinguished academics from most public and private universities in Malaysia, and many international universities, are regular attendees at this event.

It is the place to meet the who's who of signal and image processing in Malaysia.

**OBJECTIVE**

The main objective of the conference is to explore the frontiers of Science and Technology in various areas addressing innovative research in the broad field of signal, image and video processing as well as to discuss and entertain topics that stretch into the future. It also provides a venue and many opportunities to meet and network with colleagues from this field and to share experiences as well as to learn from others. This premier event includes workshops, tutorials, panel discussions, and keynote talks from industrial leaders, and renowned academics.

IEEE ICSIPA 2015 represents an exceptional opportunity to meet, discuss with, and learn from key industry and academic leaders and practitioners who are active in the field.

**TOPICS OF INTEREST**

High quality submissions addressing innovative research in signal, image and video processing have been submitted, reviewed, and accepted for presentation at IEEE ICSIPA 2015. of a total of 240 submissions, 133 have been accepted for presentation. Topics include:

**Image Acquisition and Display, Image and Video Processing and Analysis, Storage and Retrieval, Coding and Transmission, Applied Signal Processing for life sciences data, forensic analysis, radar and array processing; speech and music processing; communications, coding theory, etc, and Emerging Technologies in DSP.**

**PROGRAM**

The three-day event consists of three keynote speeches by eminent personalities in the field (**Jean-Luc Dugelay, Fellow, IEEE; Swee-Kiang Fong, VP R&D & MD, Altera Corporation (M) Sdn Bhd;** and **Fabrice Meriaudeau, Director of Le2i, France**), 27 parallel sessions, exhibitions, and tutorials.

Join us at this premier event. For further details visit <http://spsocmalaysia.org/icsipa2015>.

**COMMITTEE**

**General Chair**  
Syed Khaleel Ahmed (UNITEN)

**General Co-Chair**  
Nor'aini Abd Jalil (UiTM)

**Finance Chair**  
Mohammad Faizal (MMU)

**Technical Chair**  
Vijanth S Asirvadam (UTP)

**Local Arrangements Chair**  
Norliza Mohd Noor (UTM)

**Program Chair**  
Sabira Khatun (UniMAP)

**Publications Chair**  
Syed Ab Rahman (UTM)

**Tutorials & Special Sessions**  
M. Iqbal Saripan (UPM)

**Publicity & Website Chair**  
Rajasvaran Logeswaran (APU)

**Sponsorship Chair**  
Yasmin Hanum (UNITEN)

**Secretariat Chair**  
Hezerul Abdul Karim (MMU)

**International Advisory Panel**  
Ahmad Fadzil (UTP,)  
Alex Kot (NTU, Singapore)  
Ba-Ngu Vo (Curtin, Australia)  
Nasir Memon (NYU, USA)  
Pierre Moulin (UIUC, USA)
